

# A company that values your community

Southern States has been delivering propane since 1948. Today we are one of the top 10 providers in the U.S., and operate 77 locations in six states: Virginia, North Carolina, West Virginia, Delaware, Maryland and Kentucky. Last year, we served 119,000 satisfied propane customers.

Every Southern States propane location is locally managed with home-grown talent, and we pride ourselves in operating companies that are active in the communities they serve.

**PROPANE**  
EXCEPTIONAL ENERGY™

However you use it, **trust us to provide it.**

# PROPANE

# HOME

For a home that's comfortable and efficient year-round, choose Southern States as your propane supplier. We offer reliable automatic delivery, so that you always have propane when you need it, no need to check your gauge or call in for delivery.

Plus, we take the hassle out of heating bills by offering our budget plan billing, so that you pay one level monthly amount instead of receiving bills on delivery.

With Southern States, you can also trust us with your appliance installations and repairs, so you can relax and enjoy the warmth.

## Commercial and Industrial Applications

When it comes to your business, we know that operating efficiently and economically is a priority. When you choose Southern States as your propane supplier, you can be sure that you will always have propane when and where you need it. We'll always have your budget in mind, because when you're successful, we are too.

Southern States has the experience to serve your business. Whether it's heating buildings and work spaces, gas cooking in restaurants, fueling forklift cylinders, or other industrial needs, we'll cover your fuel needs.

## AGRICULTURE

Whether it's grain drying, tobacco curing, or heating your poultry and livestock work areas, Southern States has the agricultural expertise to cover all your needs.

We offer economical propane service with reliable automatic delivery, so you don't worry about running out. You have plenty of work to do, so let us take care of keeping your business fueled.
