

# COMPLETING YOUR HORSE'S DIET

## FEEDING DIRECTIONS

Provide horses with **EquiMin Horse Mineral** in a block form in the pasture, or as a top dressing on their grain ration. When starting to feed EquiMin Horse Mineral, remove salt and other mineral products. Monitor intake to verify the recommended daily amount of EquiMin consumed. Feed EquiMin continuously near horse's water source and protect from rain if mineral feeder is located outside.

Place **EquiMin Horse Mineral Block** in the exercise area or pasture. Provide one block for 1 to 4 horses on a free-choice basis. When starting to feed EquiMin Horse Mineral Block, remove salt and other minerals from the pasture. Locate block near water source to encourage consumption. Be sure block is placed in an area where it will not be exposed to heavy rainfall. Provide block on a continuous basis, placing a new block in the pasture before the old block has been totally consumed.

### PER HEAD / PER DAY

**Top-Dressed Over Feed:** For additional mineral and vitamin supplementation, provide **EquiMin Horse Mineral** over grain fed at the following rates (a two-ounce scoop is provided in pail)

	Mineral	Block
Foal	1 oz	1 to 2 oz
Yearling /Two Year Old	2 oz	2 to 3 oz
Mature Pony	2 oz	2 to 3 oz
Mature Show and Pleasure Horse	2 oz	3 to 4 oz
Broodmare and Stallion	3 oz	4 to 5 oz
Lactating Mare	4 oz	5 to 8 oz
Moderate to Hard-Working Horse*	3 oz	3 to 5 oz

\* Additional salt or electrolytes should be offered to active horses to offset losses through perspiration.

### ANALYSIS

	Mineral	Block
Calcium (min)	16%	14%
Calcium (max)	18%	18%
Phosphorus (min)	8%	8%
Salt (min)	22%	20.5%
Salt (max)	26%	23.5%
Magnesium (min)	1%	1%
Sulfur (min)	0.3%	0.1%
Potassium (min)	0.6%	0.35%
Iodine (min)	30 ppm	30 ppm
Copper (min)	620 ppm	500 ppm
Cobalt (min)	6 ppm	6 ppm
Selenium (min)	16 ppm	16 ppm
Zinc (min)	2,450 ppm	2,200 ppm
Manganese (min)	1,250 ppm	1,200 ppm
Biotin (min)	8.0 mg/lb	No Guarantee
Vitamin A (min)	200,000 IU/lb	200,000 IU/lb
Vitamin D <sub>3</sub> (min)	20,000 IU/lb	20,000 IU/lb
Vitamin E (min)	1,000 IU/lb	400 IU/lb

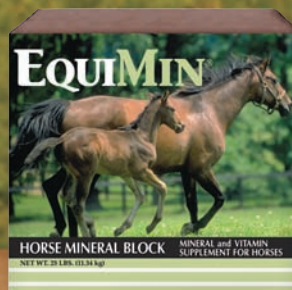

# EQUIMIN<sup>®</sup>

## HORSE MINERAL

### Available in Top-Dressing or Block Form.

- Designed for grass and mixed (grass/legume) forage feeding programs, and for horses who receive a small grain diet.
- Added biotin, yeast culture and organic minerals for increased nutrient digestion, enhanced immune response, and improved hoof and coat condition.
- Special mineral formulation, will not cake when exposed to rain or high humidity.
- Orange and fenugreek flavors added to increase palatability and encourage consistent consumption.
- Complete supplement for horses, contains all essential minerals and vitamins for horses at the required levels, including salt.
