SHOW Your Support

Use your empty horse feed bags to support your favorite horse club or organization. It's easy with Southern States' Special Horse Organization Winner's (SHOW) Program. Southern States takes pride in supporting the horse industry. We developed the SHOW program to provide non-profit breed associations and horse clubs their own sponsorship tool. Collect the proof-of-purchase seals from any Reliance®, Legends® or Triple Crown® feeds and give them to your favorite horse club or organization. Organizations register with the Southern States corporate office and submit seals collected to receive money back to support their local events. Interested in enrolling your organization? To learn more, go to www.equussource.com or call (804) 281-1481.

LEGENDS®
HORSE FEEDS

Advanced Safety and Performance for Your Horse.

Featuring Controlled Carbohydrate Technology™

Here's How to Win the Nutrition Race with Legends® Horse Feeds:

- Guaranteed levels of amino acids supply an essential amino acid profile for superior growth and muscle maintenance.
- High guaranteed levels of organic selenium and vitamin E supply antioxidant benefits for health, reproduction and performance.
- Yeast culture for increased fiber breakdown and improved nutrient absorption.
- Fixed ingredient formulas provide superior palatability for consistency in growth, performance and body condition.
- Organic trace minerals provide improved biological function of reproductive, growth and immune system processes.
- Proper calcium and phosphorus ratio and other mineral levels to support proper bone development, regardless of hay or pasture variety.
- Added digestible fiber (beet pulp and soy hulls) and increased fat content provides low levels of sugar and starch for proper bone development, enhanced muscle performance and stamina, calm behavior, and an increased safety margin from insulin resistance, colic and laminitis.
- Addition of biotin for improved hair coat and increased hoof growth.

LEGENDS®

Legends® Horse Feeds have a long history of quality and superior performance. These feeds utilize Controlled Carbohydrate Technology™ for advanced safety and performance for your horse.

Controlled Carbohydrate Technology™ is a research based formulation technique that utilizes digestible fiber sources and vegetable oils, in combination with precise grain selection, to create low-starch, low-sugar horse feeds. Lower starch and sugar levels (soluble carbohydrates) have been shown to reduce the risk of insulin resistance, colic and founder. It also promotes proper bone development in growing horses, improved muscle performance and calmer behavior.

Each Formulated to Satisfy Your Horse's Individual Needs.
